

Download 2 Barrel Rochester Carburetor Manual

We carry carburetor kits for all Rochester 2 Jet, 2G, 2GC & 2GV carburetor types. 2G is a manual choke carburetor, 2GC is a hot air choke type with the choke thermostat mounted on the carburetor, 2GV is a divorced choke, which means the thermostat is mounted in the intake manifold (not on the carburetor itself) and connects to the carburetor with a choke rod. rochester 1 barrel models b & bc carburetor installed on chevrolet's, chevrolet/gmc trucks & pontiac's with 216", 235" or 261" engines. it will work on the following rochester # models this kit has th... This Site Designed By EagleHosting WebSite Design for Carburetors Unlimited Inc ©2006 WebSite Design for Carburetors Unlimited Inc ©2006 Compensator. Some Rochester 2g carburetors had a hot idle compensator attached to the middle of the venturi. When heated up, the bimetal bends up, exposing a vent hole and allowing more air into the intake.
