Resulting from the above discussed advantages of natural products, in spite of the predominant industrial focus on HTS approaches with synthetic compound libraries, natural products still represent a valuable source for drug discovery (Newman and Cragg, 2012). Plant-derived natural products approved for therapeutic use in the last thirty years (1984–2014) are summarized in Table 1. Acetone Sources, Testing, Air Purification, and Health Information Acetone is a common household toxic chemical that may reduce your indoor air quality after being released from such products as paint, nail polish, secondhand cigarette smoke, and many household chemical products.
