

Download Biosystems Engineering I Creating Superior Biocatalysts

Aeirtec Times Square Newcastle upon Tyne, NE1 4EP United Kingdom Aeirtec provides custom high sensitivity multiplex immunoassay. Aeirtec's assay service is conducted according to the principles of GLP and ISO 17025:2005.1. Development of novel immobilization methods for various biocatalysts with synthetic prepolymers 2. Bioconversion of lipophilic compounds in the presence of organic solvents by immobilized biocatalysts 3. Application of immobilized growing microbial cells and plant cells 4. Diversified microbial utilization of renewable resources (Biodegradable plastic materials, Biodiesel fuel) 5.
