

Download Building Lapstrake Canoes

Simpler strip building, and later aluminum and fiberglass, took over. Now, CLC's revolutionary LapStitch™ building method allows lapstrake canoes to be built by someone with no previous woodworking experience. All the planks and other parts are pre-cut. No strongback, molds, frames, or steam bending are required; building a LapStitch™ canoe is basically a matter of gluing all the pre-cut ...» Answer the call of the wilderness in Lutra Flyfisher, Laker, Little Laker, Voyager or Indian Girl. » Boatbuilding kits available now! See how our templates make the difference. » Read reviews of David's book, *The Working Guide to Traditional Small-Boat Sails*, and pick up your very own signed copy today. Also, don't miss David's new books, *Lapstrake Canoes: Everything You Need to Know ...*. Boatbuilding plans for traditional lapstrake boats from Walter Simmons at Duck Trap Woodworking. Wooden Canoe Heritage Association. A non-profit membership organization devoted to preserving, studying, building, restoring, and using wooden and bark canoes, and to disseminating information about canoeing heritage throughout the world.
