The AAO and American Optometric Association (AOA) (1997) issued a joint policy statement on vision, learning, and dyslexia, maintaining that vision therapy does not treat learning disabilities or dyslexia directly, but is a treatment to improve visual efficiency and visual processing to allow an individual to be more responsive to educational instruction.
Background and Purpose— Acute vestibular syndrome (AVS) is often due to vestibular neuritis but can result from vertebrobasilar strokes. Misdiagnosis of posterior fossa infarcts in emergency care settings is frequent. Bedside oculomotor findings may reliably identify stroke in AVS, but prospective studies have been lacking.
