

# **Download Dental School Interview Guide Preparation And Practice For Dental School Admissions**

The dental school interview is the one opportunity that you have as an applicant to sell yourself and establish a connection with the dental school. Admissions committees review credentials such as academic qualifications, the results from the Dental Admissions Test (DAT), grade point average (GPA), letters of recommendation, personal interviews and dental office shadowing experiences. Admission requirements can vary from school to school. CASPER TEST PREPARATION. The Computer-based Assessment for Sampling Personal Characteristics (CASPer®) has grown in popularity as an added medical school application component in screening pre-medical candidates in Canada and the United States. The Canadian medical school application process has become one of the most challenging medical admissions pathways globally. Licensure in a Canadian medical program provides unlimited flexibility to practice internationally due to the extremely high standards set by the Medical Council of Canada.
