

Download Encyclopedia Of Us Gold Coins 1795 1933 2nd Ed

The United States dollar (sign: \$; code: USD; also abbreviated US\$ and referred to as the dollar, U.S. dollar, or American dollar) is the official currency of the United States and its territories per the United States Constitution since 1792. In practice, the dollar is divided into 100 smaller cent (¢) units, but is occasionally divided into 1000 mills (¢) for accounting. The Indian Head gold pieces or Pratt-Bigelow gold coins were two separate coin series, identical in design, struck by the United States Mint: a two-and-a-half-dollar piece, or quarter eagle, and a five-dollar coin, or half eagle. The quarter eagle was struck from 1908 to 1915 and from 1925–1929. The half eagle was struck from 1908 to 1916, and in 1929. The earliest traces of human settlement on the territory that is now the USSR are associated with the Satani-Dar habitation site in Armenia and date from the Chellean (Abbevillian) culture (c. 400,000–600,000 years ago) of the Lower Paleolithic. Food Timeline--food FAQs: muffins to yogurt. Mushrooms Food historians tell us prehistoric peoples most likely consumed fungi and mushrooms.
