

# **Download Long-term Perspective Study Of Sub-saharan Africa Vol. 1 : Country Perspectives**

The research, development practitioner, and donor community has begun to focus on food loss and waste – often referred to as post-harvest losses (PHL) – in Sub-Saharan Africa. A multidisciplinary and multi-institutional team of African and international postharvest experts convened in a workshop in Nairobi during the month of April 2012, to develop and validate a conceptual framework that considers the whole postharvest system (). The term “system” denotes logically interconnected functions within the post-production chain. Water supply and sanitation in South Africa is characterised by both achievements and challenges. After the end of Apartheid South Africa's newly elected government struggled with the then growing service and backlogs with respect to access to water supply and sanitation developed. The government thus made a strong commitment to high service standards and to high levels of investment subsidies ... Bloomberg Markets Most Influential 50, Council on Foreign Relations' Arthur Ross Book Award for Time It's Different: Eight Centuries of Financial Folly (with Kenneth S. Rogoff), September 2011. Alice Gorlin Distinguished Award for Excellence in International Economics, 2011. Florida International University's Torch Award for Outstanding Achievement, 2011.
