

Download Manufacture Of Sulphuric Acid In United

Sulfuric acid (alternative spelling sulphuric acid), also known as vitriol, is a mineral acid composed of the elements sulfur, oxygen and hydrogen, with molecular formula H_2SO_4 . Sulfuric acid is a diprotic acid that exhibits different variety of properties depending upon its concentration. Sulphuric acid has the biggest output of any chemical in the world. Sulfuric Acid Market by Raw Material (Elemental Sulfur, Base Metal Smelters, Pyrite Ore and Others), Application (Fertilizers, Chemical Manufacturing, Metal Processing, Petroleum Refining, Textile Industry, Automotive, Pulp & Paper and Others) and Region - Global Forecast to 2021. Sulfur: Sulfur, nonmetallic chemical element, one of the most reactive of the elements. Pure sulfur is a tasteless, odorless, brittle solid that is pale yellow in color, a poor conductor of electricity, and insoluble in water. It reacts with all metals except gold and platinum, forming sulfides.
